Coil Heatsink Kit

Brand: Pazon Ignitions
Product Code: HSK

Price: $16.95

Short Description
Ignition coil heatsink kit for dual output coil types (IC03/IC05/IC10).

Description
Heatsink kit to suit our dual output ignition coils, type IC03, IC05 & IC10.

Designed to keep these coils cool and maintain the coil output over long running periods.

Comprises black anodised aluminium heatsink, turned aluminium spacers, M5 bolts, nuts & washers.
Wrap around design takes up little extra space.

Note: this part is not directly compatible with our IC32/IC33/IC35 coils.
The heatsink is too wide to clear the body. It can be fitted by mounting upside down (with the 'fins' facing away from the coil body), or possibly by bending the fins outwards so they clear the coil body.

Kit Contents
Black anodised aluminium heatsink, dimensions (L x W x H): 100mm x 46mm x 25mm

Hole spacing: 90mm between centres.

2 x turned aluminium spacers

2 x M5 x 50 cap steel cap head screws

2 x M5 spring washers

4 x M5 flat washers

4 x M5 nuts
